COMPANY INTRODUCTION

Ibrahim Saif Al-Moawi Company was Established more than ten years ago with a vision to participate in the highly growing construction industry in the Kingdom of Saudi Arabia and to be one of the leading companies in the Kingdom and the Gulf region, which achieves and is in line with the future vision of the Kingdom of Saudi Arabia.

- **ISM PREFAB** installs the core values of integrity, commitment, dedication, and quest for customer satisfaction, and these are the basic keys to success in this market.
- The experiences of **ISM PREFAB** employees varied with a combination of qualified expertise in all areas required for fixed and temporary facilities projects with a mixture of experiences and cultures, to meet customer requirements according to the best standards of quality.

Since the company was established, it has always been working to update the technical and engineering cadres for the work team, as well as introducing the highest modern technologies for construction and using cold steel technology (LGS) in all projects, which raises the efficiency of construction and the speed of completion for all permanent and temporary projects using (CNC) technology.

• The company's business field have diversified to contain a transportation fleet that serves the company's and customers requirements. We also recently incorporated its factory in the third industrial area in Dammam, which specializes in modeler steel buildings with new construction technology. **ISM PREFAB** also expanding to cover all city businesses that serve customers' requirements. Our company has future plans To expand its scope of business in the long and short term.

• **ISM PREFAB** and its subsidiaries look forward to meeting the customer's needs in the best and most effective way and translating its vision, which is in line with the vision of the Kingdom of Saudi Arabia, into a realistic and tangible vision that establishes its capabilities in the local and international market.

Ibrahim S. Al Moawi

H S E

The environment is one of the main concerns of our company and our future vision .In this regard, the company strives to implement all environmentally friendly construction techniques and green buildings In accordance with local regulations and the latest international standards, and in this regard, through a periodic environmental impact assessment of the project and with the implementation of each new project. The company's management staff is given the responsibility and authority to determine the environmental aspects of the activity or operations, over which the necessary control must be exercised in light of the environmental impact on the community and surrounding areas.

The **health** and **safety** of the work environment is the primary task of the administration towards its employees by strictly applying the zero accident policy through the .Implementation of the company's various operations.

In this context, all company departments are committed to all preventive safety and security measures, to prevent or reduce the chances of work injuries by identifying sites and activities in which injuries or risks are expected and are documented. All major risks, in an effective hierarchy, will be the control and monitoring mechanism that is applied in order to prevent the impact or mitigate the assessed risks. These mechanisms will be in the form of procedures, work instructions, monitoring and training...etc. depending on the level of importance and nature of the activities.

Ibrahim S. Al Moawi

QA/QC

- Our company looks forward to having standards of quality assurance and quality control both of which are aspects of quality management. Since QA and QC activities are interrelated, QA activities and responsibilities usually cover nearly all quality systems in one way or another, while QC is a subset of QA activities. Our use of ISO 9000:2015: Quality Management Systems - to complete Focused Operations - For things like inspections.
- Quality assurance is the systematic process of ensuring that a product meets specified requirements, while quality control addresses other issues, such as individual inspections or defects and corrective actions to address procedural deficiencies

Ibrahim S. Al Moawi

OUR VISION & MISSION

VISION

Our vision is to provide solutions to our customers to participate in important and developmental projects inside and outside the Kingdom, and to have long-term relationships and a reliable reputation in the market for future expansions and to grow to be one of the best modern companies existed.

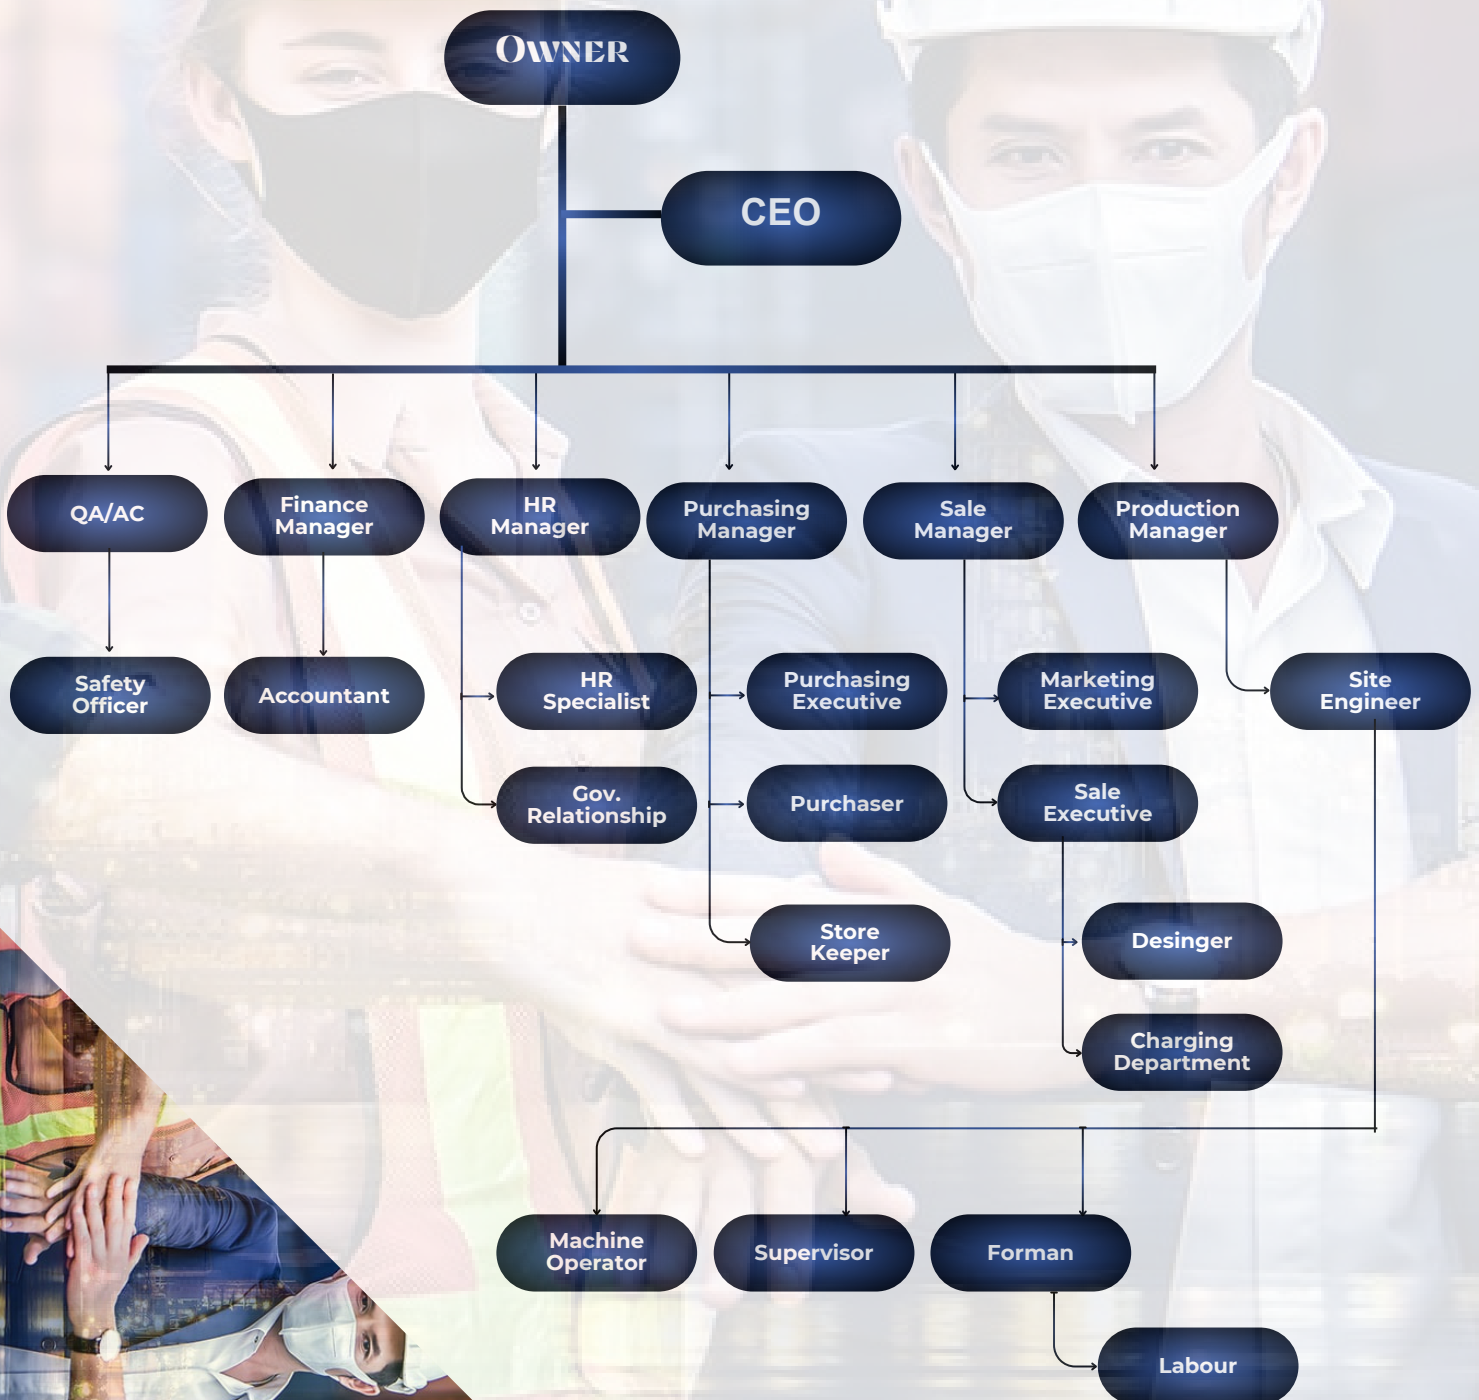

MISSION

Our mission is to serve the local community and support our client in the future challenging goals to achieve the kingdom Vision of 2030

Saudi Aramco E-Reference No. 0004703

Registration Approval Letter

May 26, 2022

Attention : IBRAHIM S. ALMOAWI & PARTNER CO FOR TRADING & CONT

CR Number : 2050068571
Supplier Type: Service Provider Only
Country : Saudi Arabia

We are pleased to inform you that IBRAHIM S. ALMOAWI & PARTNER CO FOR TRADING & CONT is now registered in the Saudi Aramco Supplier Management System under Vendor Code No. 10055176, provided your company continues to meet all relevant Saudi Arabian and Saudi Aramco standards.

This registration, however, should not be construed as a commitment by Saudi Aramco to procure from you. Being registered as a supplier only grants your company the opportunity, along with other registered sources, to respond to requests for submitting proposals in accordance with Saudi Aramco's established policies and procedures. All procurement instruments including but not limited to service contracts, purchase agreements, or purchase orders will be issued based on the name and address included in your commercial registration (CR), as stated in your Supplier Registration.

Saudi Aramco wishes to remind you that being recognized as a supplier carries with it serious obligations and responsibilities to act in a legal and ethical manner. We wish to remind you of the Saudi Aramco Supplier Code of Conduct (SCOC) which you acknowledged. Failure to abide by the principles set forth in the SCOC can result in adverse actions being taken by Saudi Aramco against you including suspension of you as a supplier. Saudi Aramco also expects each of its suppliers to satisfy each of the requirements of any procurement instrument which might be placed and to act responsibly and reliably as a supply chain supplier.

Material Suppliers should apply for Saudi Aramco Supplier Portal access by forwarding a request to portal-registration@aramco.com. The Supplier Portal is the main electronic business tool used between Saudi Aramco and its suppliers and serves to improve the flow and accuracy of key supply chain information.

For further information or assistance please contact the Saudi Aramco Supplier Help Desk by forwarding a request to SupplierHelpDesk@aramco.com or via the unified call center 800-116-1168 for In-Kingdom suppliers or +966 (11) 290-8950 for Out-of-Kingdom suppliers.

Moamar Khazal Al Usaimi, Supervisor
Supplier Registration Unit
Supplier Relationship Management Div

It is the responsibility of the supplier to update Saudi Aramco Supplier Registration Profile through Ariba for the following:

1. Change of Name / Commercial Registration Number / Address / Owner(s)
2. Any change of the supplier location
3. Discontinue supply of approved commodities (9COMs and 9CATS)

This is an electronically generated letter by Saudi Aramco. To verify Supplier approval status, please contact Supplier Help Desk at supplierhelpdesk@aramco.com

GET IN TOUCH

Since the company was established, it has always been working to update the technical and engineering cadres for the work team, as well as introducing the highest modern technologies for construction and using cold steel technology(LGS) in all projects, which raises the efficiency of construction and the speed of completion for all permanent and temporary projects using (CNC) technology.
